This is to express my appreciation of your willingness to serve on this committee. Would you please indicate to me your most convenient times for meeting?

It is not my intention to hold regular meetings of this committee, but rather to consider problems as they arise. Currently we do have a problem which relates to the expenditure of some funds (\$800) which are at my disposal. I would like your help in determining the wisest use of this money.

At our initial meeting we can discuss this and your ideas as to the future functioning of this group.
